REASONS TO DRINK IONIZED ALKALINE WATER

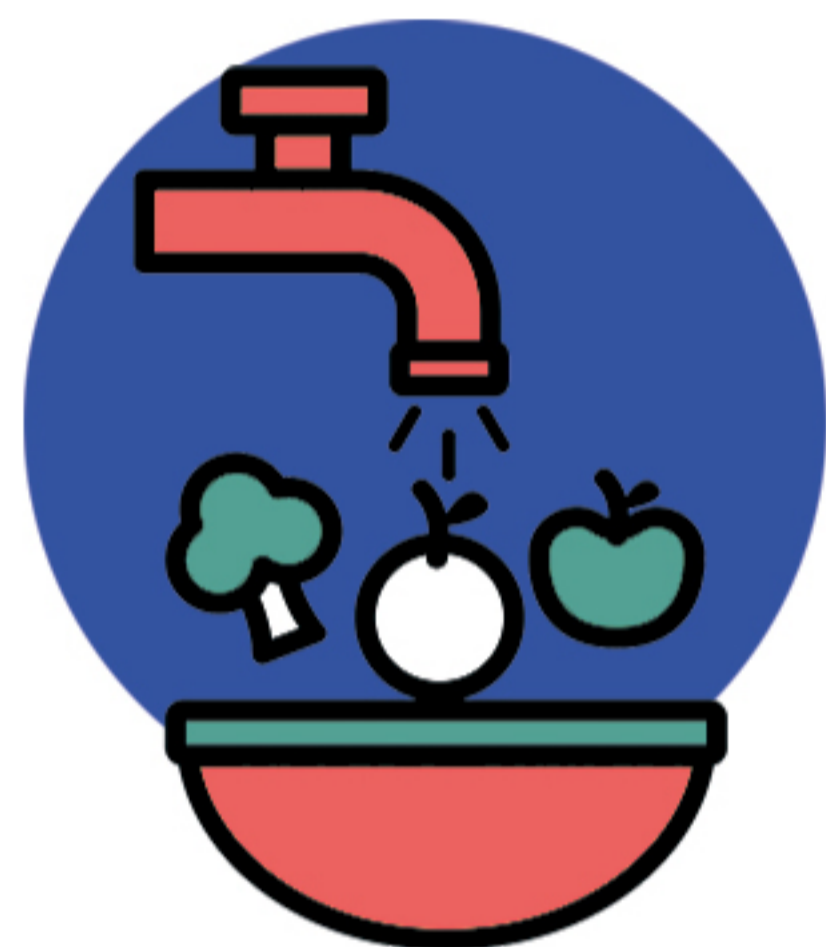

ENERGY BOOSTING:

Adequate hydration is key to feel energetic, but remember hydrogen in ionized alkaline water will boost your energy at a cellular level.

PH BALANCE:

Ionized alkaline water for drinking has a higher pH level than regular drinking water. The pH scale runs from 0 to 14, with 0 being the most Acidic and 14 being the most Alkaline. A neutral level is usually close to 7.2 pH. Without a proper pH level, you may experience fatigue, breathlessness, muscle pain, and other symptoms.

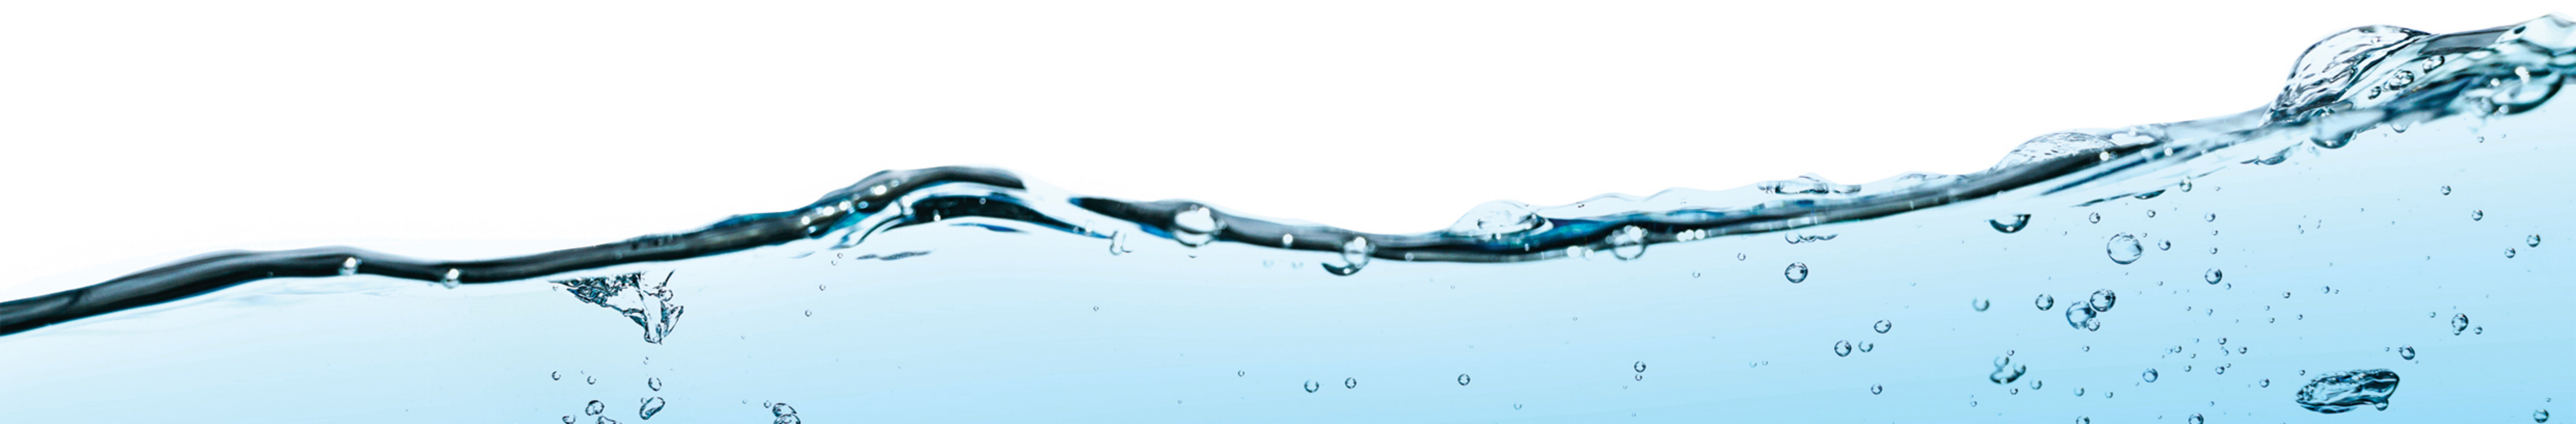

VEGETABLES CLEANING: :

Use 9.5 pH Ionized alkaline water from **Wizer** Ionizer to clean your vegetables and fruits. The higher the pH of the water, the more effective it will be in detoxifying harmful acidic chemicals and pesticides. Simply fill a bowl with alkaline water, and let your fruits and vegetables soak in it for 10 - 20minutes (longer is better).

ESSENTIAL MINERALS:

The ultra-fine composite filters keep the balance of ions, calcium carbonate, magnesium Hydroxide, Higher pH Ions dissolve nutrients to create electrolytes, and offer minerals to keep your water stable.

ENHANCE YOUR IMMUNE SYSTEM:

With an abundance of antioxidants, alkaline water can also boost your immune system and protect your body from common colds or other environmental assaults.

ENCOURAGES FASTER RECOVERY:

Time from exercise. Ionized Alkalized water neutralizes your body's acidity and increases overall strength, so you can enjoy a faster recovery period after exercise.

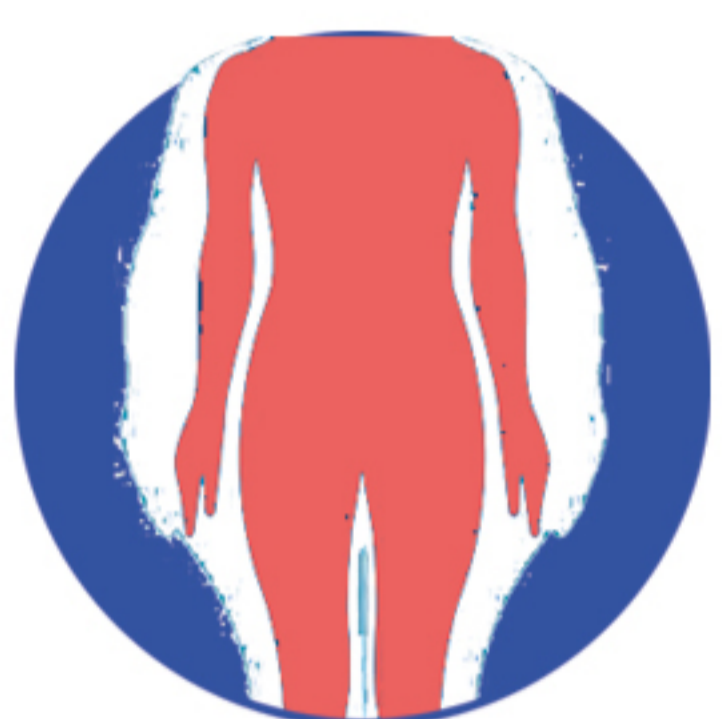

IMPROVES YOUR MEMORY SYSTEM:

Research demonstrates that Ionized Alkaline water reduces neuro - degeneration and can improve cognitive function. Lack of concentration is often attributed to an acidic diet, and Ionized alkaline water will neutralize your body's acidity.

ANTI-OXIDANT:

Ionized Alkaline water produces negative ORP (Oxidation Reduction Potential) Anti-oxidants enable your body to recover from quick aging process. As a powerful source of anti-oxidants, Ionized alkaline water fights free radicals and prohibits oxidation

SUPPORTS WEIGHT LOSS:

By neutralizing and releasing acidic waste, this healthy water also encourages weight loss. Adequate hydration boosts your metabolism, allowing your body to burn extra calories to keep warm. You will also feel full and improve muscle function.

IMPROVES TASTES:

Ionized alkaline water with pre-filtration removes bad odors and gives your water a crisp, clean taste. It Improves your food taste

ECO-FRIENDLY:

Plastic Water bottles are producing a lot of pollution. So switching to Ionized water can help eliminate plastic waste while reducing the amount of Pollution used to create disposable products.

PROMOTES BETTER SLEEP:

Smaller water molecules are able to penetrate our cells effectively, hydrating and helping us sleep more soundly

ENHANCES NUTRIENT ABSORPTION:

One of the most important reasons to drink Ionized alkaline water is that a healthy pH level allows your organs to trigger the release of enzymes that help digest and absorb nutrients from your food.

DETOX THE BODY:

A primary benefit of drinking Ionized alkaline water is ability to wash away toxins that may develop diseases and illness in your body.

BOOSTS METABOLISM:

Drinking Ionized alkaline water regularly can help in boosting metabolism. By eliminating an acid-leaning pH balance in the body, every organ is able to function efficiently, including the hormones and enzymes. This can lead to better fat-burning, more efficient digestion, increased energy and a boosted immune system.

RELIEVES ACID REFLUX:

The stomach is the most acidic place in the body, with a pH level of approximately 1.5pH to 3pH. This is important, as acid is required to properly break down food and digest it. However, excess acidity in the stomach that isn't countered by alkalizing agents can lead to acid reflux disease, which damages the esophagus's and leads to inflammation of the gut.

REDUCES INFLAMMATION:

Ionized Alkaline water can help lubricate muscles and joints and relieve the pain and inflammation caused by arthritis and asthma. This inflammation is actually caused by an elevated level of acidity.

IMPROVES HEART HEALTH:

Studies have found that acidosis can be indicative of heart problems, including high cholesterol and blood pressure, as well as an increased risk of diabetes. Drinking Ionized alkaline water regularly to counter this acidity in the body can help protect your heart.

ESSENTIAL MINERALS:

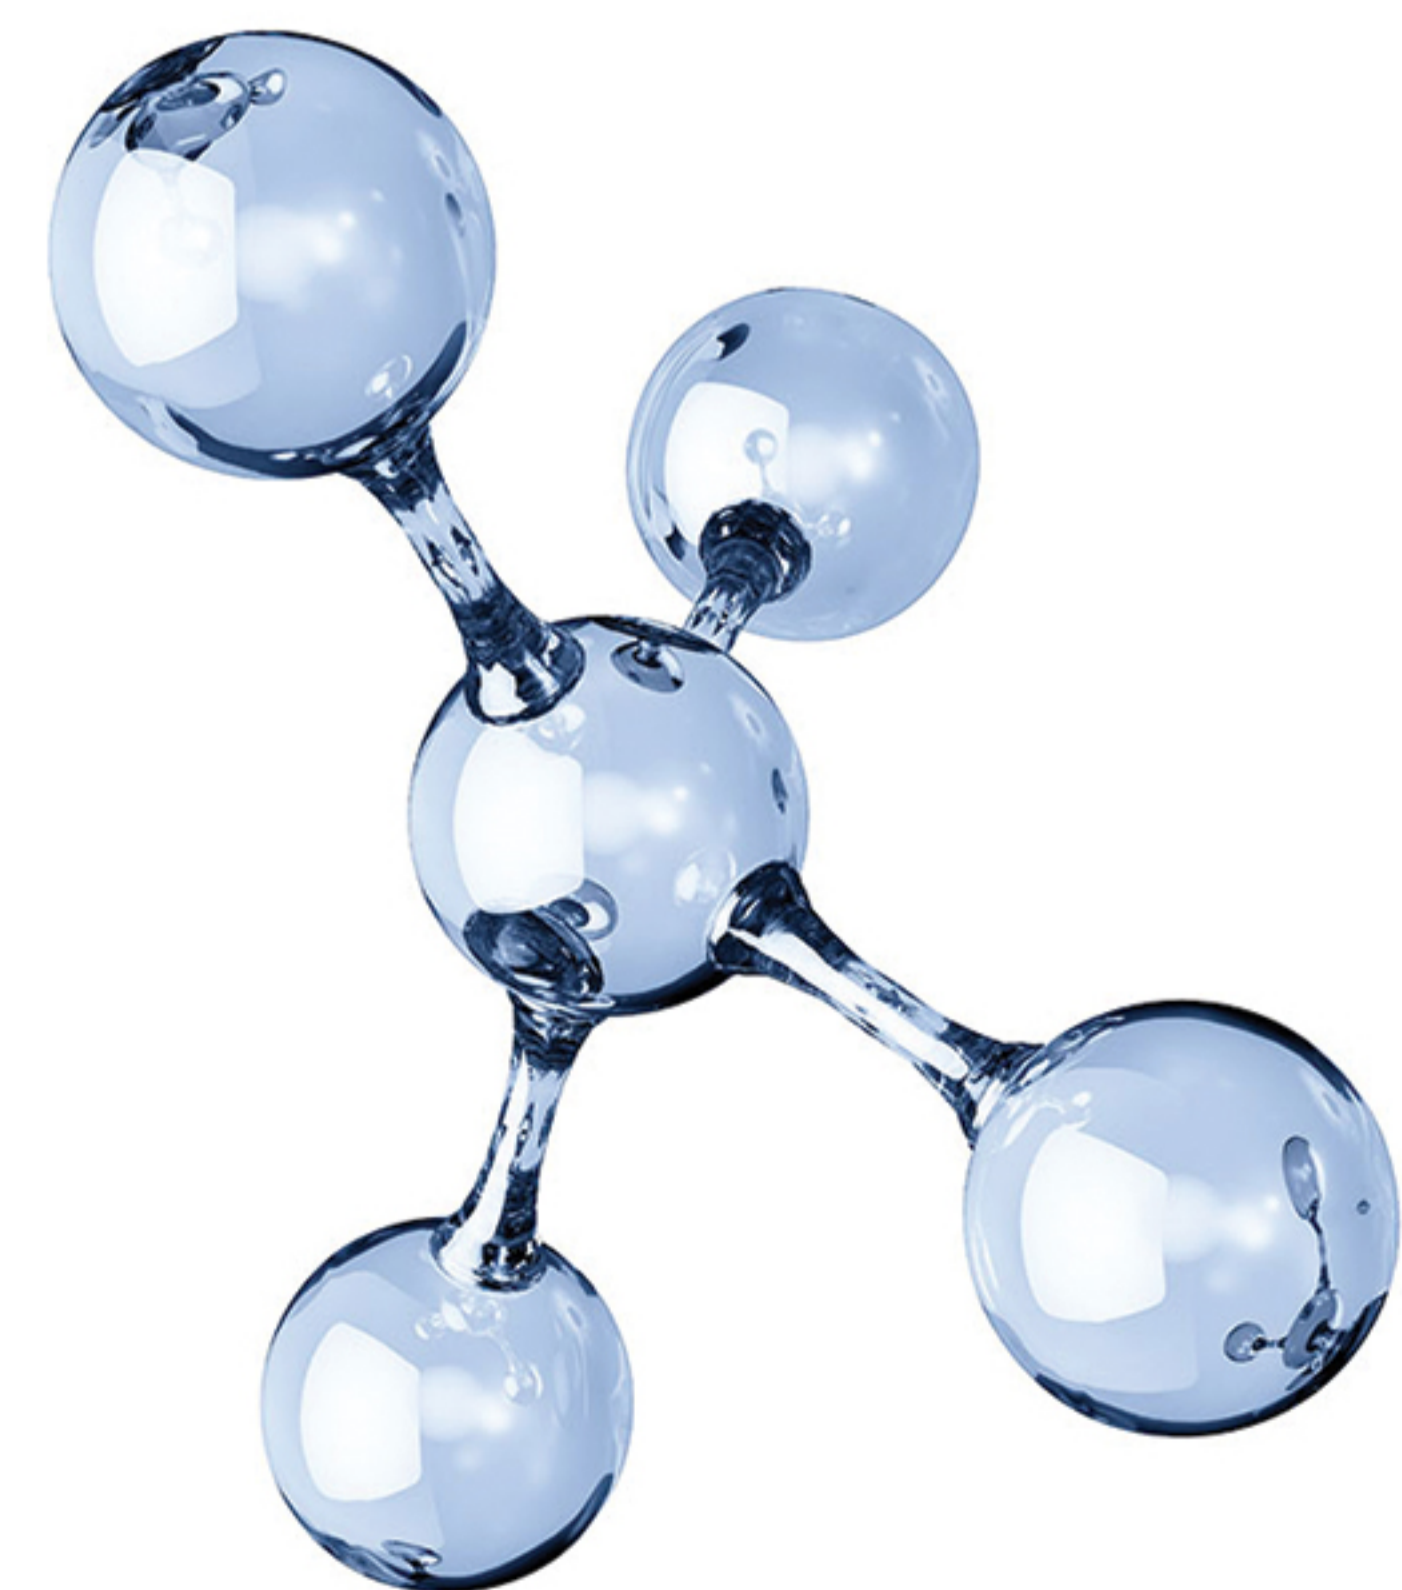

The ultra-fine composite filters keep the balance of ions, calcium, carbonate, magnesium Hydroxide, Higher pH Ions dissolve nutrients to create electrolytes, and offer minerals to keep your water stable.

MICRO CLUSTERING

As we mentioned before, Ionized alkaline water contains only 5 to 6 water molecules per cluster while conventional water contains 15 to 20 water molecules per cluster. Smaller molecular cluster means better hydration in a fraction of time. This property of "Micro-Clustered" water helps it in quick and easy absorption and will hydrate cells and tissues more effectively and Super-Charged Hydration.

IONIZED ALKALINE WATER PREVENTS THE DEVELOPMENT OF

DIABETES: The pancreas is highly dependent on correct ionized alkaline water. In return, it produces alkaline digestive enzymes and sodium bicarbonate. All aspects of pancreatic function reduce excess acidity. The pancreas also regulates blood sugar balance which creates energy in the body. Thus Alkaline Water primarily maintains proper sugar balance.

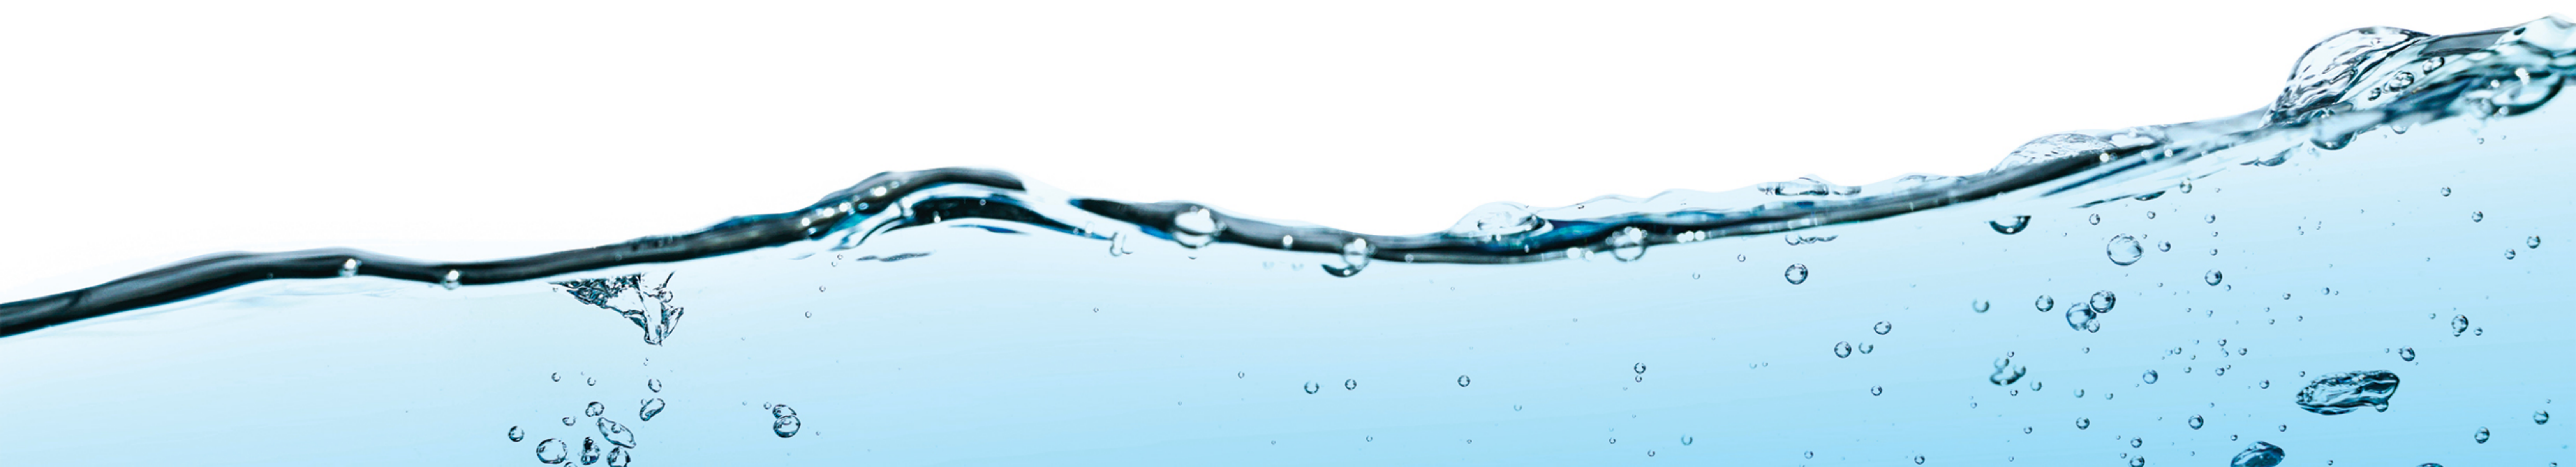

PSORIASIS VS ALKALINE WATER

The patient who drank 3.5 liters of Alkaline water starting with 8.5 pH, and sprayed strong acidic water 2.5 pH on a daily basis. Patient continued drinking 3.5 liters of 9 pH to 9.5 pH Ionized Alkaline water and continued to spray strong acidic water 2.5 pH daily. Patient also showered with Beauty water 5.5 pH. This helped the Psoriasis patient.

RENOWNED DOCTOR'S STATEMENTS :

**Dr. Otto Warburg, Chemist,
Nobel Prize Winner**

"Cancerous tissues are acidic, whereas healthy tissues are alkaline."

**Dr Keiichi Morishita, Director
of the Ochanomizu Clinic in
Japan and the Head of the
International Natural
Medicine Association**

"Drinking water that has a high alkaline pH, because of its de-acidifying effect, will help in preventing cancer. In Asia, alkaline water is regularly served to patients, and is considered a regular part of treatment."

**Dr. Lester Packer, Senior sci-
entist at Lawrence Berkeley
Laboratory, world's foremost
antioxidant research scien-
tist**

"We recommended that you drink 8-10 glasses per day of this alkaline water. It is one of the simplest and most powerful things that you can do to combat a wide range of disease processes. It is interesting to note that in Japan, professional sports teams drink alkaline water to improve their performance"

**Dr. Mu Shik Jhon, Chemist,
Founding President of the
Association of Academies of
Sciences in Asia**

"Ionized water has a hexagonal shape and carries an abundance of hydroxyl ions (OH⁻). It provides extra electrons that neutralize destructive free radicals circulating throughout the body. Hexagonal ionized water carries a high negative ORP (Oxidation Reduction Potential) when it is first produced, making it a potent anti-oxidant."

**Dr. Sherry Rogers, M.D.,
Immunologist,
Environmental Medicine**

"Alkaline water rids the body of acid waste. After carefully evaluating the results of my advice to hundreds of individuals, I'm convinced that toxicity in the form of acidic waste is the primary cause of degenerative disease."

**Dr. Leonard Horowitz,
Behavioral Scientist,
Educator**

"International studies show that populations with little or no history of illness, such as cancer, drink higher pH (alkaline) waters. After all potential risk factors were considered and factored out, it became evident that they had been drinking waters with a pH of 9.0 to 10.0."

**Dr Arthur M. Echano, Medical
Doctor, Naturopath,
Nutritional Medicine
Specialist**

"If the world has accepted antioxidants to slow down the aging process, it should readily agree to the uses of ionized alkaline water as an anti-aging agent. Their roles are closely linked and intertwined such that a lasting anti-aging program is incomplete without addressing both free radicals and organic acid wastes."
